

## History

*The memories of our high school days are fun filled, often poignant and it is comforting to note that even as the North High School legend grows older, it hasn't become dimmer. We are appreciative of the opportunities afforded us by a learned, dedicated and approachable staff of teachers and administrators.*

*Now, in the autumn and winter of our years, a new spark; a renewed pride has emerged to perpetuate the North High School legacy by fostering an awareness of the high level of achievement and community service of its' graduates.*

*Appropriately, we have chosen to perpetuate the legacy by establishing The North High School Hall of Fame.*

*The Hall will expand annually and allow us to reveal to the community and to ourselves, that North High School graduates have significantly impacted our society more than we could have imagined.*

This time frame represents a large segment of our school's history and we feel it important to address that to the extent possible.. Interested committee members may serve on the committee.*
